SATURDAY SEPTEMBER 12, 1879.

Kennekcet's Wonder. [Elizabeth City (N. C.) Falcon.] We have received authentic information that at that portion of our sea-coast known as Little Kennekeet a valuable historic relic in the form of the complete skeleton of a whale sixty feet long has been found, well preserved. The peculiarity of the affair is that the skeleton was found imbedded in a sand-bill which has been covered with an extensive forest "from time whereof the memery of man runneth not to the contra- METATITI OR LIVER COMPLAINT, DYSry." The sand of this bill, being recently changed by storms during the past two years, was gradually removed from the place where the remains of this ancient monster of the deep must have been re-posing for hundreds, yes thousands, of years. Another circumstance, besides the fact that large trees of slow growth are directly over the skeleton, is that the hill in which it was found is on the sound side of the beach, showing concusively that the entire coast must have been deeply submerged at the time when this specimen of our greatest sea mammals was driven from his ocean home and left on the coast by the receding waters. What great flood could this have been? Verily has a prehistoric

relic been found. The late General Hood, after the sudden death of his wife, was completely crushed. A near friend of his writes to Mr. Randall Gibson: "I was with him Monday morning till the foneral. He said be'd rather God should have taken every one of his children in one day than to have lost his wife; that he was completely rained, and now, without his wife, he had nothing to live for. The precious little fambs who had gene to bed Sunday night knowing nothing of their mother's death, began to come in one by one until nine came in, and such a seene I never wish to witness again. After the am ready to go. I have requested Colonel death has shown the LIVER to have been extensive-Flowers to take charge of my children and Lyaleranged. appeal to the Confederate soldiers to support them, for I have nothing on earth to leave them.' He was taken Tuesday morning at 3 o'clock, and died Friday morning at half-past 3 o'clock, perfectly in his mind to within ten minutes of his death. At about 2 o'clock he asked the dector if his time to die was not near at hand. The doc-
